SURAT DIAMOND BOURSE

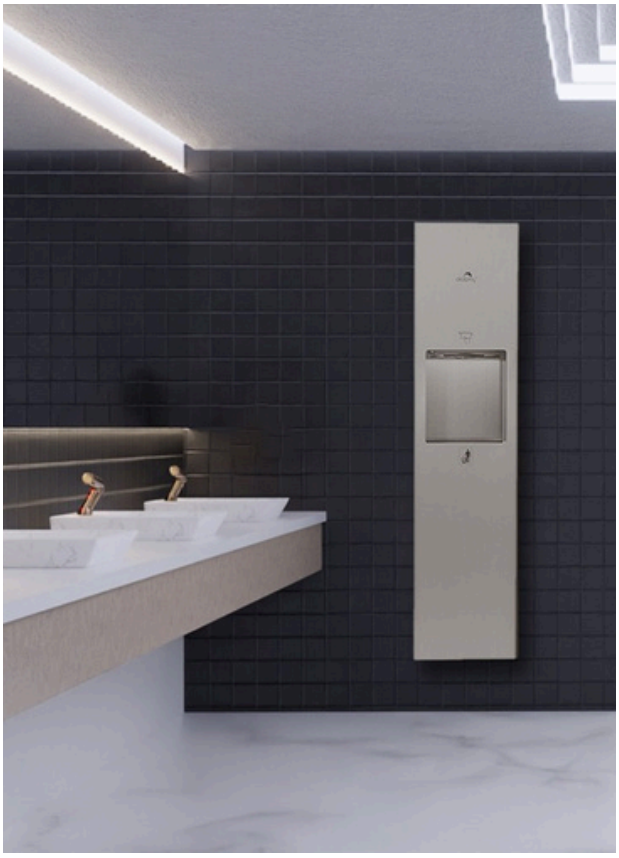
Location: 177/P, Dream City, Surat Gujarat 395007
Architect: ARK Reza Kabul Architects
Featured Products : 2-in-1 Washroom Recessed Panel
SKU : DWCB0003

Background

The SURAT Diamond Bourse, the world's largest diamond trading hub and office building, expressed concerns about potential rust in stainless steel products due to its coastal location. Dolphy Group was tasked with delivering customized, upgraded SS grade recessed panels in a short timeframe. Dolphy successfully met the deadline, providing high-quality products that met the required standards.

The Challenge & Solution

As the project held significant importance, the authority announced plans to deliver the world's largest diamond trading hub, featuring 660,000 square meters (**7.1 million square feet**) of floor space and the **world's largest office building**. However, they encountered a major setback when the contracted supplier was unable to deliver the upgraded 316 stainless steel recessed combination units on time. Given the project's proximity to the ocean and the extreme geological conditions of the site, this posed a serious challenge for management to procure the necessary materials within a short time frame.



Dolphy Group was appointed to ensure the successful and timely delivery of the required products while maintaining high-quality standards. With strong control over our manufacturing process and a team of skilled professionals committed to customizing products to the required specifications, we swiftly developed and supplied the upgraded **DWCB0003 316-Grade Stainless Steel Recessed Panels** within the stipulated time and budget.
